

Rails with pin slots
allow for height
adjustability

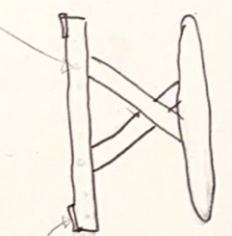

"slats" to
set "table-top"
on

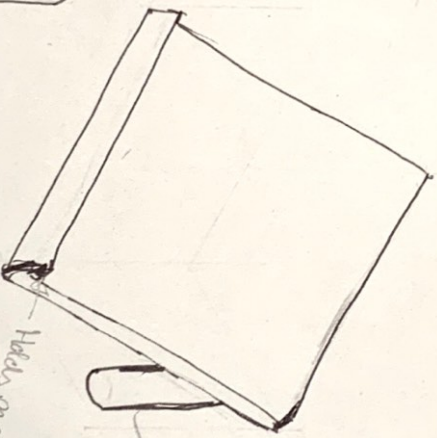

Perhaps a more
child-appelling
design
reminiscent of a
fence.

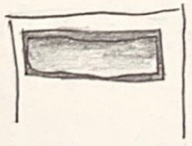

Rubber feet
(adjustability)

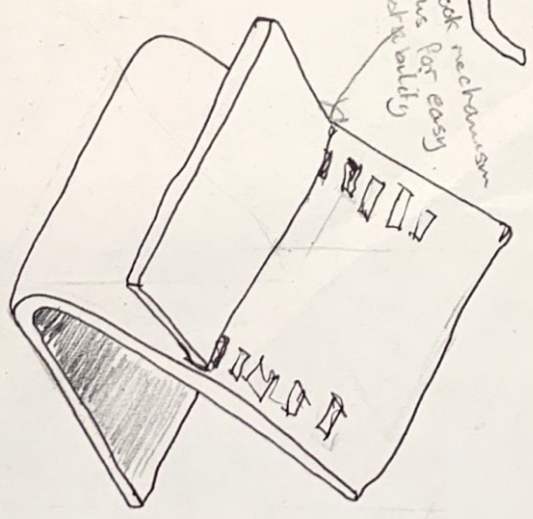

Holds paper or laptop
(keeps things from
sliding off)

legs will
fold into
slot on back

lock mechanism
allows for easy
adjustability

legs will fold down to
make workspace easier to
store
